Financial aid and Scholarship understands that today’s announcement ending DACA is incredibly worrying for our Dream Students. With that in mind we want to reassure you of some things regarding your financial aid.

- AB 540 status is authorized in state law, so it will not be affected by the decision to end DACA. Support for the AB 540 law remains strong at the University of California and among California policy makers.

- The financial aid available to undocumented AB 540 students comes from state and UC sources. Therefore, the decision to end DACA will not have a direct effect on the ability of undocumented students to access financial aid coming from state, institutional and private sources.

- The University of California remains committed to promoting the success of undocumented AB 540 students through its financial aid program and other support services.

- Bruins stand with Bruins. If you need assistance or have questions please do no hesitate to reach out to our office.
